DR. S. P. BROOKS

FOR UNITED STATES SENATOR**ONE OF THE ABELEST, CLEANEST MEN IN TEXAS****A SELF-MADE MAN IN EVERY RESPECT**

A man of the People; a Leader in Education; the Champion of Labor; a Life-long Student of Statecraft; an Honest, Earnest, Energetic, Upright Citizen.

At the Age of 10—a Farmer; at the Age of 29—a Section Hand; at the Age of 30—a College Graduate; at the Age of 40—President of Baylor University; at the Age of 50—United States Senator.

Everybody acknowledges his ability, but they say he is not a politician. We need statesmen, not politicians.

Everyone admits his great strength in body, mind, and moral character, but they say he is a poor man.

The time has come for Texas to elect a poor man and rebuke the purchase of office with wealth.

He has no political debts to pay and asks no favors, but the support of honest citizens who have no thought of reward.

NATIONAL GUARDS ARE NAMING CAMPS

New York Regiment Maintains Name of "Camp Scorpion," While Texans Call Theirs "Camp Rattlesnake."

(By Associated Press.)

Brownsville, Texas, July 19.—Eastern National Guardsmen, as well as the Texas contingent, doing duty on the Texas-Mexican border, are perpetuating the memory of their first nights in camp by naming the various regimental stations, apart from the concentration camps, after their first companions, enemies, or bedfellows, as the case may have been.

One New York regiment maintains its unofficial address at "Camp Scorpion," while a Texas detachment established its residence at "Camp Rattlesnake." Similar names, indicative of the soldier's first impression of his border surroundings, are given other camps.

The Texas sun, which shines probably hotter and longer on the sandy and dusty plains of the Rio Grande Valley than elsewhere in the state, was at first the worst enemy of the guardsmen when they concentrated on the border. Thousands had just left offices and other indoor work where the climate was less tropical. They felt the effect of the heat during their first week in camp.

Contiguous irrigation streams and canals, as well as the Rio Grande itself, offered cool retreats, however, and it was but a short time before even the most tender had become acclimated to Texas in July.

"I trust that we shall make you feel quite at home," remarked the hotel manager. "Don't you try it," expostulated the married man. "I'm away for a good time."—Judge.

STATE FISH HATCHERY TO BE IMPROVED

Fish, Game and Oyster Commissioner Wood Has Plans for Enlargement of State Hatchery.

(By Associated Press.)

Dallas, Texas, July 19.—Plans for the immediate improvement and beautification of the state fish hatchery here, near Fair Park, are being prepared by State Fish, Game and Oyster Commissioner Will W. Wood. It was announced here today.

One of the objects of the renovation is to make possible exhibits of fresh water fish during the State Fair of Texas. When the work is completed, Commissioner Wood said, this hatchery will be as large as any in the United States.

A. & M. CADETS SHOW APTITUDE

A. & M. College Boys Lead List of Those Showing Aptitude for Military Service is Report.

(By Associated Press.)

Austin, Texas, July 19.—Fifty students from various educational institutions in Texas where military training is a part of the curriculum, have been certified to the adjutant general's department of Texas as "displaying special aptitude for military service." These students, many of whom are graduates of the several institutions, will be given assignments in the National Guard as fast as opportunities offer themselves.

The largest number came from the Agricultural and Mechanical College of Texas at College Station, there being seventeen from that institution. Others came from military academies throughout the state, and there were also several from high schools where military science has recently been added to the course of studies.
